# 1. SmartRF Flash Progrmmer 설치

우선 CC-DEBUGGER 장비가 있어야 합니다.

## CM-CC-DEBUGGER

[www.ti.com](http://www.ti.com) 방문

## 1.3. smartRF Flash Programmer

The screenshot shows a search interface on the TI website. The search bar contains 'smartRF Flash Programmer' and a 'GO' button. Below the search bar, the search results are displayed. The first result is 'SmartRF Flash Programmer - FLASH-PROGRAMMER - TI Software Folder'. The search results are highlighted with a red box. To the right of the search results, there is a 'Recent Search' section with a list of recent searches: 'smartRF Flas', 'Flash Progr', '1.3.', and 'SmartRF Stu'. The search results section is also highlighted with a red box.

다운로드 받아서 설치를 합니다.
